## A POLITICAL TERROR

### Capt. Ryan, Big Injin Him, the Man Who Did Most to Defeat Us,

Now since the dust from the political landslide has settled and we can look clearly over the fatal field of the "slide," the master manipulators, the workers who did the work, the fighters who did the fighting can be identified.

We had all along our fears of Capt. Ryan, and now we are satisfied that our fears of his political craft and persistent, uncompromising hostility to the Democratic party, were well founded.

The Captain is a genial, pleasant gentleman in his business and social relations, but when it comes to a campaign fight he is the blackest republican, the meanest politician in the gang. He makes no compromises, he gives no quarter. He fights hard and persistent and fights to a finish. He does not herald his plans with a brass band, nor loud speeches, nor bluff bets. His work is on a calculated plan, and he works his plan to a success. He was the first republican in the history of our county to break into the Court House. He has been our object of political attack ever since. He is without question the strongest man of his party in Hocking today, and our fear is that he will continue to "dabble in politics" to our great distress.

An examination of the last vote will show that where the republicans made the greatest gains, the Captain was in the field, getting in his work.

General Grosvonor has a number of very violent enemies in his own party in Hocking, some of whom are assumed leaders. The General's old corps commander, Colonel Sands, was sick during the campaign, and could do but little for his friend. Capt. Ryan made Gen. Grosvonor's fight his own, and the fact that he was not out more, was scratched by so few, is due largely to the zeal with which the Captain championed his cause.

We submit these views, now in the coolness of a settled condition in politics for the present, for those of our Democrats who are to engage in the next fight. Keep your eye on Capt. Ryan. He is the worst enemy the democracy has in election times.

Socially, we like him. So do all of us. But in politics, he will tommyhook all in his path. Watch him. Beware of him.

## MERCY! MERCY! SPARE US!

Chaffield's Murray City News.

Editor Green of the Hocking SENTINEL attributes the late Republican victory to L. W. Hull's tuning fork and Chaffield's poetry. It is presumed that the fineness of the combination was too great for the rude ears of those who have cut off from the living and follow the dead for more than half a century.

John White came down like a wolf in the fold. His cohorts were gleaming in silver and gold. And Commodore Green and his phalanx fled, and were trampled, yes, until dead.

### WORTHY OFFICIALS

A saving of \$8.13 per capita over last year is the showing in the management of the Athens State Hospital is able to report to the governor. The daily average attendance of inmates for the year was 1,125. There was expended for their maintenance \$107,624.55, the per capita being \$95.57.

The saving of \$3,500.00 in the per capita expense is creditable to the management of the Superintendent, Dr. Rorick, and Steward, Wm. Souder.

Tax president has accepted a gift from the Emperor of Germany of a statue of Frederick the Great. This honor of "Unser Fritz" by our government ought to restrain our indignation against Russia for the part she took in the partition of Poland.

Tax president has given orders that rural mail carriers must let politics alone, and while they can carry papers and accept subscriptions, they must not tie to any one paper, nor discriminate against any party. It was reported during the late campaign that some of our carriers had crossed the dead line, and removal would have followed a complaint, sustained.

A friend of Senator Forsaker is credited with having stated that the latter will be a candidate for governor of Ohio next year. This is certainly a most interesting statement if true. Why Senator Forsaker should want to give up his present position to become governor, an office which he filled years ago, is not clear, except upon the assumption that he deems himself the only republican that can defeat Governor Herrick for re-election. The latter is just now the target of considerable criticism, and if Senator Forsaker should enter the field against him he would have a hard road to travel for the nomination. It may well be that the senator has no intention of being a gubernatorial candidate, and that his only aim is to frighten Herrick and his friends into agreeing not to oppose him for re-election to the position he now holds.—Pittsburgh Post.

ALTHOUGH Governor Peabody of Colorado was defeated by about 10,000 majority, he is said to be contemplating an attempt to hold on to the office he now occupies for another term. It is said he will claim that he was defeated by fraudulent practices. In the event of his attempting to retain his office serious trouble is feared and civil war is threatened. Governor Peabody is reputed to rely upon the support of the National guard of the state, while the miners threaten to come to the support of the democratic candidate with arms in their hands. The majority against Governor Peabody is so large that there will be little disposition to give credence to his claim of having been honestly elected, and it is to be hoped that after he has had time to get over the disappointment caused by the election he will give no countenance to a program which must inevitably have most deplorable results for his state if carried into effect.

It was significant that as soon as it was known that the democrats had elected their candidate for governor in Colorado the mine owners agreed to concede the eight hour work day to the employees in the smelting works. It was because of the efforts of the miners to secure this privilege for the smelters that the troubles which have convulsed the State of Colorado for the past year and a half were precipitated. The miners themselves enjoyed the eight hour day, but they went on a strike to secure the same privilege for the smelters. The concession of this privilege would insure peace in Colorado but for the fact that Governor Peabody is threatening to contest the election of Alva Adams, the Democrat who was the choice of a majority of the voters as his successor. Mr. Adams declares that he will not administer his office in the interests of labor as against capital, but for the benefit of all classes of people. If Peabody will bow to the will of the people the day will be brighter days ahead for Colorado.
